

COMPACT & PORTABLE

The MainLite® HD is based around two very compact cable drums (KW 207/KW 307) and the BP 3 multi-function computer controller. The entire unit can be mounted in a truck, trailer, or UTV, or used in portable applications with the portable cart. Whether you are a small town, large municipality, or contractor, the MainLite® HD System is adaptable, capable, and ready to go at the push of a button.

Perfect for portable applications, the **MainLite® Portable Cart** provides a cushioned seat and ergonomic mount for the BP controller.

Highlighted Features
