DURA-BILT® COMPACTORS

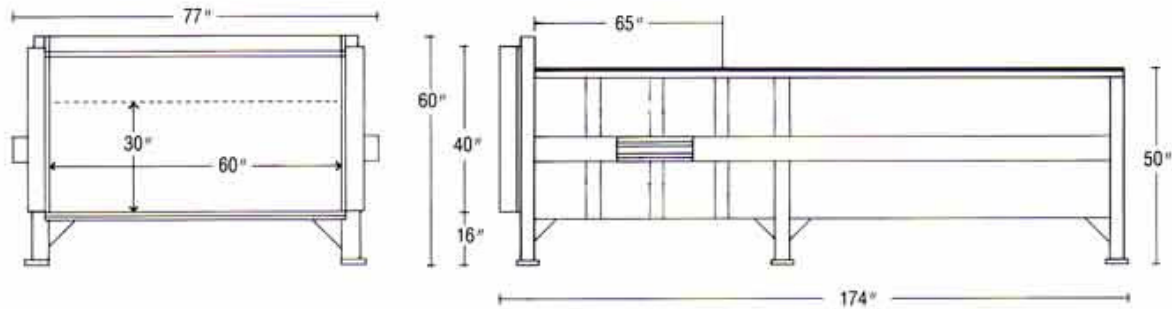

Sized to every need

If your disposable wastes include large objects the Dura-Bilt 400 with a 60 x 65" hopper opening is designed to meet your needs. The heavy duty construction assures you a long life and low maintenance. The remote operator station features a 100% full light warning for the convenience of the user.

Welded select prime steel construction is a Dura-Bilt trademark.

**400****DURA-BILT
COMPACTORS****SPECIFICATIONS**

Capacity	4 cubic yards
Overall length	174 inches
Overall width	77 inches
Overall height	60 inches
Loading height	50 inches
Charge box opening	65 x 60 inches
Ram face height	30 inches
Ram face width	60 inches
Ram stroke	87 inches
Cylinder size	6 inch with 3.5 inch shaft
Ram penetration	21 inches
Operating pressure	1800 lbs. PSI
Packing pressure per square inch (PSI)	37.03 lbs. PSI
Total compaction force	56,520 lbs.
Cycle time	67 seconds
Motor	10 HP 208—230/460V 3-phase 60 cycle—High Torque Tri-Voltage
Pump	15 GPM @ 1800RPM—Shockless
Weight	7100 lbs.

**Nationwide installations
custom-fitted to any user requirements**

Design and specifications subject to change without notice.

Features

- Large 60 x 65" charge box to receive large or unusual shaped objects
- Heavy-duty construction
- Lower maintenance cost
- High density payloads
- Shockless pump operation
- High torque—tri-voltage motor
- Pressure switch controlled power circuit for dependability and low maintenance
- 100% full light indicator

Optional Equipment

- Dock ramp
- Safety hand rails and end gate
- Side or dock hopper
- Fully enclosed dog house—with door
- Side or rear opening thru-wall-chute with security door
- Fluid filled pressure gauge/Trashmiser
- Special application container guide
- Cart dumper—side or dock level
- Extra length hoses (if required)
- Oil immersion heater
- Deodorizer system
- Electric eye or sonic sensor for chute loading
- Computer controlled power unit
- Power units up to 30 HP

Bilingual safety decals are provided to meet current A.N.S.I. standards.
